Edit the Submit Button

First, open your Form Builder and click on the submit button at the bottom of your form.

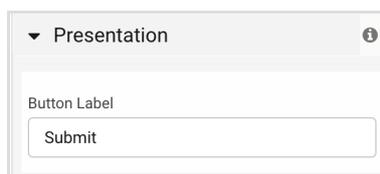

Select **Options**. This will open the **button properties panel**.

Presentation

Expanding the **Presentation** section will allow you to change the text on the submit button. You can type into the label field to edit the button text.

Conditional Rules

If you would like to prevent your form from being submitted based on a form field, you can use our "conditional submit" feature. This feature will show or hide the submit button based on your set criteria.

Button Properties

- ▶ Presentation
- ▼ Conditional Rules

Conditional Rules

No rule defined.

Edit

Disable until all rules are met

Hide until all rules are met

Message to Display If Rules Are Not Met

Clicking **Edit** will open the Conditional Rules Editor modal.

Conditional Rules Editor

Applying conditional rules to the submit button helps to keep your data clean by preventing responses that do not meet the conditional rules set below.

[Learn more about Conditional Rules here.](#)

START

Message to Display If Rules Are Not Met

Save Cancel

This modal has the same functionality as our conditional field properties.

Below the Edit button, you can select whether you'd like to *disable* the submit button until all rules are met or *hide* the submit button until all rules are met.

Disabling the submit button will cause the submit button to be greyed out and unable to be selected until all rules are met.
