Overview

Salesforce has issues with dashes when dates are submitted via the Salesforce connector. A simple formula will allow you to automatically convert the date from MM-DD-YYYY to MM/DD/YYYY.

Resolution

Use the following formula in your date mapping to automatically convert your date field:

```
@IF(@CONTAINS("-",%%tfa_xxx%%),@SUBSTITUTE(%%tfa_xxx%%,"-","/"),%%tfa_xxx%%)
```

Replace tfa_xxx with the field alias for the date field from your form.
